Wikipedia

7th April 1969 [The internet is born](#)

The Advanced Research Projects Agency (ARPA) awarded a contract to build a precursor of today's world wide web to BBN Technologies. The date is widely considered as the internet's symbolic birthday.

7th April 1948 [The World Health Organization is established](#)

The WHO is a United Nations agency concerned with fighting disease and epidemics worldwide, building up national health services, and improving health education in its 194 member states.

7th April 1827 [The first friction match is sold](#)

English chemist John Walker produced and sold the first operable matches. They were soon banned in France and Germany because burning fragments would sometimes fall to the floor and start fires.
